

Accenture Recognized with Three Partner Awards by Tableau

Accenture Recognized with Three Partner Awards by Tableau

NEW YORK; March 17, 2021 – Accenture (NYSE: ACN) has been named the Tableau Global Services Partner of Year, the Tableau EMEA Services Partner of the Year, and the recipient of the Americas Strategic Win award.

Accenture received these awards as a result of the deep analytics experience it brings to shared clients and for delivering implementation, systems integration, training, and solutions-building services for Tableau offerings. The awards recognize a 5x increase in Tableau license sales influenced by Accenture in just two years, as well as Accenture’s focus on growing Tableau certified professionals, and its continued focus on investing in new solutions across industries.

“Accenture remains committed to helping our clients use data to unlock powerful insights across their businesses,” said Mark Farbrace, a managing director in Accenture Applied Intelligence and lead of the Tableau practice at Accenture. “These awards recognize our continued investment in talent, our deep industry experience, and our ability to help our clients operate with new agility across all of their business functions.”

The Tableau Partner Awards is an annual awards program honoring the outstanding performance and significant achievements for its partners around the world. The 2020 Tableau Partner Awards recognize contributions from partners across ten regional categories and five global categories.
